Land Development • Infrastructure • Transportation

Description of Project

GE served as a Sub-Consultant to Alday-Howell Engineering, Inc., providing professional engineering services for the SR 79 Shared Use Path from SR 30A (US 98/Back Beach Road) to the West Bay Bridge, approximately 0.5 miles. The project included additional trail to connect the sidewalk on the west side of SR 79. The design included a “cul-de-sac like” intersection with the sidewalk to better accommodate bicycle turn arounds. This was mirrored on the east side to improve the existing trail and sidewalk intersection. The project also included minor modifications to the drainage ditch on the outside of the trail.

Construction Cost: TBD

SR 79 Shared Use Path
SR 30A (US 98/Back Beach Rd) to the
West Bay Bridge
Panama City Beach, Florida

Project Owner's Information:

FDOT District 3
Jonnie Kirkland
850-625-7047

Year Completed:

- 2019 - Professional Services
- 2022 - Construction

Firms involved with this Project:

- Alday-Howell Engineering, Inc. (Prime)
- Gortemoller Engineering, Inc.
