

Gortemoller Engineering, Inc.

Land Development • Infrastructure • Transportation

Description of Project

GE served as the Prime Design Consultant providing design and engineering services for the ± 1.0-mile widening project from 2 to 5 lanes from Baldwin Road to SR 390. Project highlights include construction & widening the roadway from 2 lanes to 5 lanes, drainage system design, utility coordination, curb & gutter, sidewalk, signal design and sign and pavement marking design. This project is the first project to be permitted through pollutant loading reduction in Northwest Florida Water Management District by providing off-site treatment compensation via an off-line wet detention facility routing an existing ditch through the facility until flows stage above the ditch block.

Construction Cost: \$10,500,000

Jenks Avenue Widening Design Build From Baldwin Road to SR 390 Panama City, Florida

Project Owner's Information:

Bay County Board of County Commissioners
Josee Cyr, P.E.
850-248-8301

Year Completed:

- 2018 - 2019 Professional Engineering Services / Constructions
- 2019 - 2021 Construction

Firms involved with this Project:

- Gortemoller Engineering, Inc.
- GAC Contractors, Inc.
- Southeastern Surveying & Mapping Corp.
- Southern Earth Sciences, Inc.
- BCC Engineering, Inc.
- Panhandle Engineering, Inc.
- Environmental Resource Consultants, Inc.
