Land Development • Infrastructure • Transportation

## Description of Project

GE provided design services as a sub-consultant to Dewberry for the City of Panama City Beach Front Beach Road Community Redevelopment Agency (CRA). Our services included Sign & Pavement Markings, Signalization, and Lighting Designs for Segments 3.0 & SR 79, 4.1, and 4.2, as well as Implemented Smart Poles and LightGuard Safety Systems. Front Beach Road is an accepted failing road, however GE improved the operational abilities of the roadway by adding Flashing Yellow Arrow to all the signals. Dedicated lanes from tram/bicycle were implemented to allow for increased efficiency in the tram system in the area. Also, a heavily warranted signal was added at Powell Adams Road.

## City of Panama City Beach Front Beach Road CRA Redesign of Front Beach Road Panama City Beach, FL

### Project Owner's Information:

City of Panama City Beach  
David Campbell, P.E.  
CRA Manager  
(850) 233-5054

### Year Completed:

- Professional Services - Ongoing

### Firms involved with this Project:

- Dewberry, Inc.
- Gortemoller Engineering, Inc.

Estimated Redevelopment Cost: TBD
