

Gortemoller Engineering, Inc.

Land Development • Infrastructure • Transportation

Description of Project

GE served as the Prime Design Consultant providing design and engineering services for the ± 1.0-mile widening and design-build project from 2 to 5 lanes from Baldwin Road to SR 390. Project highlights include construction & widening the roadway from 2 lanes to 5 lanes, drainage system design, utility coordination, curb & gutter, sidewalk, signal design and sign and pavement marking design. This project was the first project to be permitted through pollutant loading reduction in Northwest Florida Water Management District by providing off-site treatment compensation via an off-line wet detention facility routing an existing ditch through the facility until flows stage above the ditch block.

Jenks Avenue Widening Design Build From Baldwin Road to SR 390 Panama City, Florida

Construction Cost: \$10,485,069

Project Owner's Information:

Bay County Board of County Commissioners
Josee Cyr, PE
850-248-8301

Year Completed:

- 2018 - 2019 Professional Engineering Services / Constructions
- 2019 - 2022 Construction

Firms involved with this Project:

- GAC Contractors, Inc. (Contractor)
- Gortemoller Engineering, Inc.
- Southeastern Surveying and Mapping Corp.
- Southern Earth Sciences, Inc.
- BCC Engineering, Inc.
- Environmental Resource Consultants, Inc.
