

Gortemoller Engineering, Inc.

Land Development • Infrastructure • Transportation

Description of Project

GE served as the Prime Design Consultant to the City of Panama City providing professional engineering services for the 1.0-mile widening and reconstruction project from 23rd St. to Baldwin Rd. Project highlights include widening the roadway from 2 lanes to 5 lanes, drainage system design, potable water main relocation and pedestrian safety improvements, as well as significant utility coordination with Gulf Power and AT&T. Project included utility poles owned by both Gulf Power and AT&T that each included multiple aerial UAO's on poles.

Construction Cost: \$4,415,000

Jenks Avenue (CR 2341)

Resurfacing, Rehabilitation,
and Restoration
Bay County, Florida

Project Owner's Information:

City of Panama City
Dale Cronwell, PE
