

Gortemoller Engineering, Inc.

Land Development • Infrastructure • Transportation

Description of Project

Gortemoller Engineering, Inc. was selected over the previous design engineer to provide engineering design and general permitting services for a 34,295 SF warehouse and parking lot expansion to the Lewis Bear Distribution Facility. Working with Holmes & Holmes Architects, GE redesigned and expanded the existing stormwater facility to meet the current Northwest Florida Water Management District and Escambia County design criteria.

Lewis Bear Distribution Facility Pensacola, Florida
